DETAILED ACTION

Claims 1-10, 14, 16 and 18-21 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-16. Applicants' amendment and remarks filed 2 March 2007 have overcome the 35 USC 112 1st paragraph rejection and the 35 USC 112 2nd paragraph rejections. Experimental Example No. 4, page 59 of the specification, provides support for the treatment of retinal ischemic disorder.

Drawings

The drawings filed on 28 September 2006 are accepted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to products of the formula (I) and methods of treating cataract or retinal ischemic disorder. The novel and nonobvious aspect of this invention involves the substituents on the morpholine ring. The closest prior art of record fails to teach or suggest applicants' instantly claimed formula (I).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
